Items include (clockwise from top right):

1. My MAGA hat
2. Whistle my father gave me around 50 years ago for emergencies while hiking, skiing, climbing, running, and even open water swimming — now it is for defending the constitution of the United States of America
3. Walkey - Talkey — in case I am separated from my husband
4. Long sock with a lock to knock commies upside the head if the decide to mess with anyone around me

Let's take back our country today....

Sock with a lock is a tool to knock commies upside the head in the event they decide to mess with a patriot

If you miss with that it's going to swing back around and whack something you don't want it too. Overhand downward swings. Don't swing it sideways.

3 ▼ I pray today ends it...

But I know today is just a battle to be won... and there will be many more before we chase these Commie snacks from our garden...

I pray for resolve and determination for all patriots to see this through to the end...

3 If you haven't seen already you won't get into the ellipses at this point due to lines.

Also they did say in advance no signs or selfie sticks or a bunch of other items would be let into that area.....but in reality you can't get into the ellipses area if you have a simple backpack! They didn't say that in advance that I saw but it is True!

So join everyone opposite the ellipses by the monument where they crowd is massive!

1 Thanks for the update ...

1 Don't have the gun skills for this situation....

Know your strengths and weaknesses — proceed accordingly
